

DOE/NNSA DETERMINATION AND SUPPLEMENT ANALYSIS FOR THE FINAL ENVIRONMENTAL IMPACT STATEMENT FOR THE CONTINUED OPERATION OF THE PANTEX PLANT AND ASSOCIATED STORAGE OF NUCLEAR WEAPON COMPONENTS

The Pantex Site Office of the Department of Energy/National Nuclear Security Administration (DOE/NNSA) has issued a *Determination and Supplement Analysis for the Final Environmental Impact Statement for the Continued Operation of the Pantex Plant and Associated Storage of Nuclear Weapon Components*.

The Final Environmental Impact Statement, also known as the Sitewide Environmental Impact Statement (SWEIS) evaluated the potential impacts of continued operation of the Pantex Plant between 1996 and 2006. This Supplement Analysis (SA) compares current conditions to those predicted by the SWEIS during this period and evaluates potential impacts between 2007 and 2011 to determine whether the impacts identified in the SWEIS remain valid.
